Opportunity runs deep™

Reasons to Exhibit at OCEANS 2012

LOCATION: Hampton Roads, Virginia

- Virginia Beach
- Norfolk
- Portsmouth
- Hampton
- Newport News
- Suffolk
- Chesapeake

BUSINESSES & ORGANIZATIONS:

- Virginia Offshore Wind Coalition
- Virginia Maritime Association
- NOAA Marine Operations Center & National Oceans Service
- Norfolk Naval Base
- NATO-Allied Command Transformation
- U.S. Fleet Forces Command
- Fifth District Coast Guard
- Port of Virginia
- Virginia Port Authority
- Chesapeake Bay Foundation
- Virginia International Terminals
- Fugro Atlantic
- Huntington-Ingalls
- Northrop Grumman Shipbuilding
- National Institute of Aerospace
- Virginia Advanced Shipbuilding & Carrier Integration Center

and many more

RESEARCH & UNIVERSITIES:

- Virginia Institute of Marine Science
- NASA Langley Research Center
- Jefferson Physics Lab
- Old Dominion University
- College of William & Mary
- Norfolk State University
- Hampton University & the Center for Atmospheric Science
- Hampton Roads Technology Council
- Hampton Roads Research Partnership

MUSEUMS & PARKS:

- Virginia Aquarium & Marine Science Center
- Nauticus
- Hampton Roads Naval Museum
- The Mariner's Museum
- Portsmouth Naval Shipyard & Museum
- Jamestown Settlement
- Colonial Williamsburg
- Busch Gardens

- Attend technical sessions and hear the latest ideas about ocean science and marine technology and meet with industry, academia, local, state, federal government officials.
- Located on the east coast of the U.S. in a state of the art convention center near the Atlantic Ocean, Chesapeake Bay and various marine science attractions.
- Amenities that allow you to conduct your normal business activities while networking with technologists, decision makers, politicians and potential clients (Wi-Fi, business center, easy shipping and mailing, lunch service).

You SHOULD exhibit at OCEANS 2012 if you are in:

National ocean enterprise ventures, sea level rise and/or coastal inundation research, marine renewable energy development, offshore wind initiatives, marine spatial planning, integrated ocean observing, marine vehicle autonomy programs and other engineering and marine science endeavors.
